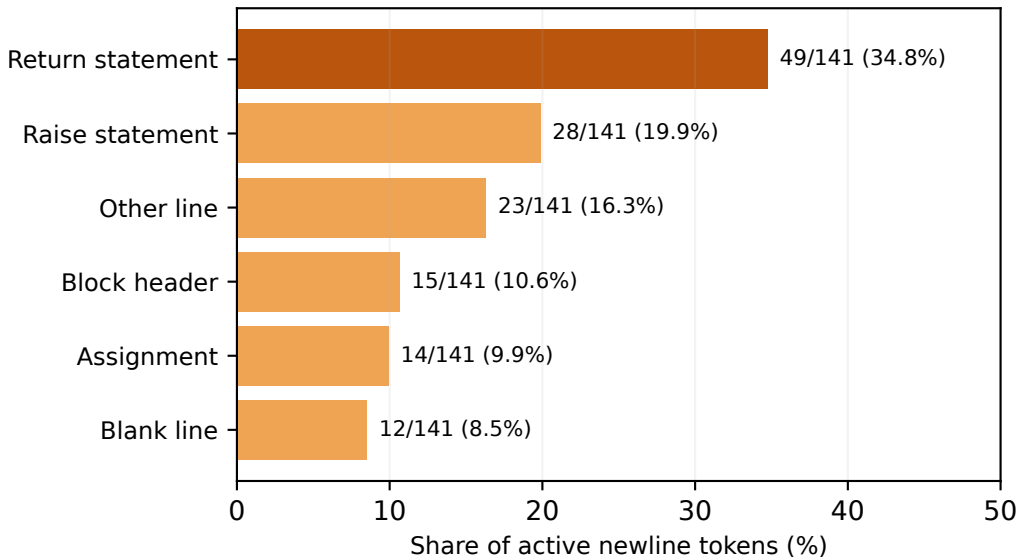
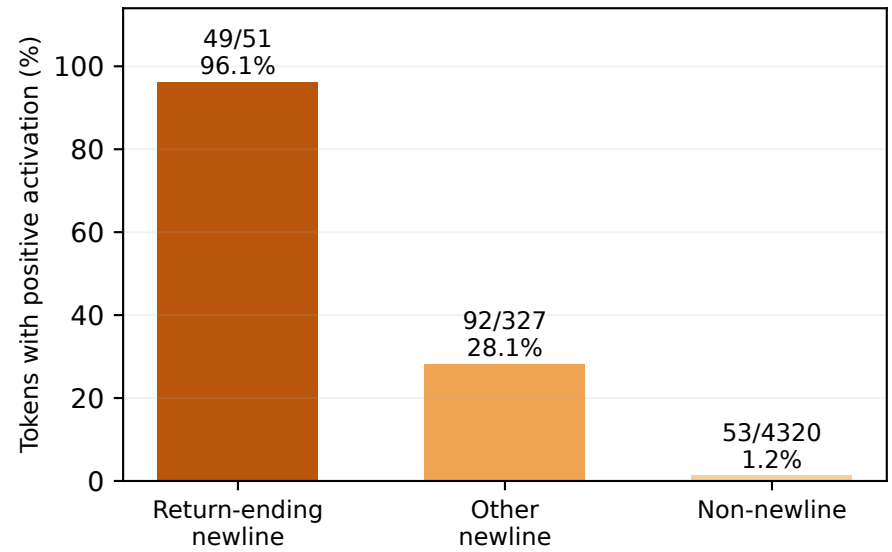
(a) DeepSeek 4810 · base text · 119 tasks

(b) CodeLlama 4309 · merged text · 50 tasks

(c) Which lines end at an active newline?



(d) How often does each token category activate?



Clouds: activation-weighted token IDs, support ≥3 tasks; NEWLINE and SPACE are visible aliases.
Panels (c–d): all 50 original failing merged texts; pooled occurrences, not task percentages.
