CodeLlama 4309: failing merged text

/183: repaired at alpha -5

```
return HttpResponse(json.dumps(data),
status=200) [NEWLINE*]
```

/490: repaired at alpha -5

```
return xmltodict.parse(s) [NEWLINE*]
```

/115: still failing at alpha -5

```
raise ValueError('task_func() requires a
 non-empty list of numbers') [NEWLINE*]
```

* First naturally active token.
The newline follows the preceding expression.
